JOB OPPORTUNITIES IN SOLAR SECTOR IN INDIA

Dr. Ranjeet Mehta

India has a massive need for energy. Its per capita consumption of electricity is less than one third the world average. Indian Government has set a target of achieving 100 GW (gigawatt) of solar power by 2022. This target will principally comprise of 40 GW Rooftop and 60 GW through Large and Medium Scale Grid Connected Solar Power Projects, out of the total 175 GW the country plans to produce from renewable sources. This ambitious target of 175 GW of Renewable by 2022 includes 100 gigawatts of solar energy, 60 GW of wind energy, 10 GW of bioenergy and 5 GW of small hydro.

As part of its efforts under the 2015 Paris Agreement on climate change, India, the world's third largest emitter of greenhouse gases in absolute terms, has committed to cutting its

emissions by a third by 2030 from 2005 levels. To meet this goal, the contribution of renewable energy to India's electricity capacity should double to 40% by 2030.

India represents a reliable, fast growing, diversified and financially viable market opportunity for

development of renewable energy. The country faced with the challenge of a growing population, provision of rural electrification and deep energy shortages, simply has to add other generation sources. India's need to promote and provide stimulus to new and renewable energy sources arises

from the fact that primary fuels i.e. crude and coal account for our single largest import. During high commodity price cycles, the country has faced constrained supplies of primary fuel, high budgetary deficit and resultant inflation. Another important consideration for a rapidly developing economy like India, to promote renewable energy is climate change with coal as a fuel contributing to 55% of generated energy mix. Higher usage of fossil fuels for energy generation would account to higher emission of carbon contributing to unsustainable development.

Solar is expected to become a crucial energy source in India's energy portfolio in the next decade. One of the major reasons for development of solar energy stems from the fact that it can be set up in

CAREERS IN RURAL MANAGEMENT

Vijay Prakash Srivastava

Every country has certain characteristics. India has many such characteristics. With second largest population in the world, it is amongst the fastest growing economies across all continents. Although urbanization is taking place in a big way, India still is primarily an agrarian economy and majority of population still lives in villages. All of us in our school days must have come across the statement that India lives in villages. The statement still holds good.

But lot many changes are taking place on the rural horizon of our country. Agricultural production is on the increase. Construction of roads in and around villages has made them better connected. Massive

electrification has taken place and medical facilities have also improved. For various reasons rural income has substantially improved over the last two decades giving rise to higher disposable income. The growing purchasing power has given boost to demand for vehicles (both two and four wheelers), fast moving consumer goods and also things like construction material etc.

Agriculture is the primary source of livelihood for 58% of Indian population. Gross Value added by agriculture, forestry and fishing was to the tune of Rs 17.67 trillion in the financial year ending 2018. But as we all know rural economy is not only about agriculture. It is fast catching up with urban markets in terms of demand for various consumer goods and services

like telecommunication etc. as described above. With emergence of rural economy new career opportunities are also being generated.

Education for a rural management career

To make a career in rural management there is no compulsion to have a formal qualification necessarily in the subject of rural management. With a higher educational background in any of the following subjects you may plan to have a career in rural sector-

- ♦ Economics
- ♦ Agricultural Science
- ♦ Agricultural Engineering
- ♦ Social work
- ♦ Management

However considering the abundant opportunities with regard to development and business potential of rural sector many institutes have

come out with specialised programme in rural management/development and related disciplines like agri business. In fact there are institutions and faculties exclusively created to train manpower to work in this domain. In many of the institutes, companies/organisations visit to make campus placement offers.

Subjects of study

The course curriculum of a rural management course includes everything that is taught in a regular management course. However, here the emphasis is on implementing the theories, principles and concepts in rural settings. Additional subjects specific to rural segment are also taught. In general you will come across topics like

English rendering of PM's address in 49th episode of "Mann Ki Baat" on 28.10.2018

My dear countrymen, Namaskar. The 31st of October is the birth anniversary of our beloved Sardar Vallabhbhai Patel. This year too, the youth of the country is all set, to take part in the 'Run for Unity'. The weather too these days is pleasant. I urge you to participate in the largest possible numbers in this run for unity. Six months or so before Independence, on the 27th of January, 1947, the world - famous international Magazine 'Time' had a photograph of Sardar Patel on the cover page of that edition. In their lead story, they had depicted a map of India; it was nowhere close to what the map looks like now. It was the map of an India that was divided into myriad fragments. There existed over 550 princely states. The English had lost interest in India; they wanted to leave India fragmented into pieces. Time Magazine had opined that hovering over India then were the dangers of problems like partition, violence, food scarcity, price rise and power-politics. The magazine further observed that amidst that plethora of problems, if there was anyone who possessed the capability to unite the country and heal wounds, it was Sardar Vallabhbhai Patel. The story also brings to the fore other aspects of the life of the Iron Man of India... the manner in which he had managed relief operations during the Ahmedabad floods in the 1920s; the way he steered the Bardoli Satyagrah. Such was his sense of honesty & commitment that the farmer, the worker right up to the industrialist trusted him with full faith. Gandhiji considered Sardar Patel as the only one capable of finding a lasting solution to the vexed issue of the states and asked him to act. Sardar Patel formulated solutions one by one, weaving the warp & weft of unity on the axis of a single thread. He ensured the merger of all princely states with the Dominion of India. Whether Junagadh, Hyderabad, Travancore, or for that matter the princely states of Rajasthan, if we are able to see a United India now, it was entirely on

account of the sagacity & strategic wisdom of Sardar Patel. It is but natural for us to solemnly remember Sardar Vallabhbhai Patel as we exalt the spirit of unity that binds our Nation, our Mother India. The 31st of October this year will be special on one more account- on this day, we shall dedicate the statue of unity of the nation as a true tribute to Sardar Patel. Erected on the banks of river Narmada in Gujarat, the structure is twice the height of the Statue of Liberty. This is the world's tallest scyscraping statue. Every Indian will now be proud to see the world's tallest statue here on Indian soil. Sardar Patel, a true son of the soil will adorn our skies too. I hope every Indian being will swell with pride on this remarkable feat of mother India... and will sing paeans of glory in its praise with the head held high. Of course, the inner wish to visit the statue of unity will come naturally to every Indian. I am sure this will turn out to be a described destination for one & all across the country.

My dear brothers & sisters, we celebrated 'Infantry Day' yesterday. I respectfully bow before all of them who are part of the Indian Armed Forces. I also salute the families of our soldiers. But, do you know why we Indian citizens commemorate this day as Infantry Day? This is the very day when Indian Forces landed in Kashmir and saved the valley from the clutches of aggression. This incident too is directly related to Sardar Vallabhbhai Patel. I was reading an old interview with the celebrated Army officer Sam Manekshaw. In that interview, Field Marshal Sam Manekshaw was reminiscing on times when he was a Colonel. Around this time, military operations commenced in Kashmir. Field Marshal Manekshaw has mentioned how in a meeting, Sardar Vallabhbhai Patel was irked on the delay in sending troops to Kashmir. During the

proceedings, Sardar Patel gave him a characteristic glance and reiterated that there should be no delay in our Army operation and that a solution should be sought swiftly. And immediately after that, our troops flew to Kashmir... we've seen how our Army was successful. The 31st of October also is the death anniversary of our former Prime Minister Indira Gandhi. Our respectful tributes to Indira ji too.

My dear countrymen, who doesn't love sports? Elements like spirit, strength, skill, stamina are extremely important in the world of sports. They are the ultimate test for a sportsperson's mettle... all four of these virtues form the core foundation of nation - building universally. If the youth of a country possess these qualities, that country will progress not only in areas such as Economy and Science & Technology but also bring laurels home in the field of sports. Just recently I had two memorable meetings. First, I got an opportunity to meet our Para Athletes who participated in the Asian Para Games 2018 held at Jakarta. These athletes bagged a tally of 72 medals, creating a new, unprecedented record, bringing glory to the nation. I was fortunate to get an opportunity to meet all these talented athletes personally. I congratulated them. Their grit & determination; their resolve to overcome all odds in the path of success is indeed inspiring for all our countrymen. Similarly, I was blessed with a chance to meet our winners of the Summer youth Olympics 2018 held in Argentina. You will be pleased to know that in the Summer Youth Olympics 2018, the performance of our youth was the best ever. At this event we won 13 medals besides 3 in mixed events. You may recall that even, in the recent Asian Games,

India's performance was par excellence. Have you observed the way I have frequently used terms such as 'the best ever' or 'new, unprecedented record'? This is the real story of Indian Sports which are witnessing an upswing with each passing day. India is setting new records not just in the field of sports but also in hitherto uncharted areas. To give you an example, I would like to mention about Para Athlete Narayan Thakur, who won a gold medal for the country in the 2018 Para Asian Games. He is a Divyang by birth. When he turned eight he lost his father. Then he spent another eight years in an orphanage. After leaving the orphanage, he eked out a living cleaning DTC buses and working as waiter at roadside eateries. The same Narayan is winning medals for India at International events. Not just that, just observe the rapidly enhancing levels of excellence in Indian sports !Hitherto, India had never won a medal in a Judo event, at the junior or senior level. But Tabaabi Devi created history by bagging the silver medal at the youth Olympics. 16 year old player Tabaabi Devi hails from a village in Manipur. Her father is a labourer and mother a fish-seller. There were times when the family had no money to buy food. Even such hardships were not able to cow down her zest & devotion. And she has created history by winning a medal for the country. Stories like these are innumerable. Every life, every being is a source of inspiration. Every young sportsperson's passion & dedication is the hallmark of New India.

My dear countrymen, you may recall that we had successfully organized FIFA Under- 17 World Cup in the year 2017. The whole world acclaimed this as a very successful tournament. FIFA Under -17 World Cup had created a record in terms of the number of viewers on the ground. More than 12 lakh enthusiasts enjoyed the romance of Football matches in various stadia across the country and boosted the morale of the young players. This year also, we have been

fortunate to be the hosts of the Men's Hockey World Cup 2018 in Bhubaneswar. The Hockey World Cup will commence on the 28th November to be concluded on the 16th December. Each Indian who plays any game or has interest in any game has a definite interest in Hockey. India has a golden history in Hockey. India has won gold medals in various tournaments and has been the World Champion once. India has produced many great hockey players. Whenever there will be reference to Hockey, the story will remain incomplete without a mention of these legends. Hockey maestro Major Dhyani Chand is a renowned name all over the world. Then, from Balbeer Singh Senior, Leslie Claudius, Mohammad Shahid, Udham Singh to Dhan Raj Pillai, Indian Hockey has had a very long journey. Even today, players of Team India are encouraging the younger generation through their hard work and focused attention.

It is a good chance for the sport lovers to witness closely contested matches. Go to Bhubaneswar and cheer up the Indian team and also encourage each team there. Odisha has a dignified historical background and has a very rich cultural tradition. People of the state are full of warmth. This is a chance for the sports lovers to see Odisha. They can visit the world famous holy places like the Sun Temple of Konark, Lord Jagannath Temple in Puri and Chilka Lake along with enjoying the games there. I convey my best wishes to our Men's Hockey Team for this tournament and assure them that 125 crore Indians are supporting them. I also convey my wishes to all the teams from around the world coming to participate in the tournament.

My dear countrymen, the way people are coming forward and volunteering for social works is really inspirational and encouraging for all our countrymen. "Service is Supreme" has been India's tradition since centuries and we can feel the

JOB OPPORTUNITIES ...

the shortest duration compared to other energy sources. The UN Environment Program's (UNEP) 'Global Trends in Renewable Energy Investment 2016' report ranked India among the top ten countries in the world investing in renewable energy. Globally India is ranked 4th when it comes to capacity addition of renewable energy resources, which is led by United States, China and Japan.

Solar energy potential estimated by National Institute of Solar Energy is about 750 Giga Watt (GW). This is spread across a number of states namely Rajasthan, Madhya Pradesh, Jammu and Kashmir, Maharashtra, Andhra Pradesh and Gujarat. Endowed with more than 300 days of sunshine a year, India is making strides towards becoming a global solar superpower. Since 2009, when the country first launched the National Solar Mission, it has installed solar parks on large tracts of unused land across the country.

Employment opportunities in Solar Sector

Solar energy is extremely critical for world economies because of the number of methods in which the sun's radiation is put to use in a vast array of solar products ranging from solar panels, solar street lights, to solar inverters, solar UPSs, solar mobile chargers, solar fans, solar cables, solar mobile chargers, solar home systems, and even solar CCTV cameras. Just think about the number of people who would be employed in the manufacturing, sales or installation of so many products. Today, jobs in clean energy become more available and well-paid because, according to European Defence Fund (EDF), solar energy supply companies are able to offer more jobs per dollar invested. It develops 12 times faster than the whole US economy.

The solar sector has emerged as a new industrial domain over the recent years. With more and more people beginning to install solar panels in their homes

and offices for meeting their energy requirements, the solar industry is developing faster than ever before in sales, installation and manufacturing verticals. If we

have a look at the employment generated in the United States, the solar industry has employed more than 350,000 people thus far and it is projected that by 2025, an additional 202,000 jobs are going to be created.

India has a population of 1.3 billion people. It is estimated that by 2022, the solar energy industry would generate as many as 1.6 million jobs with over 600,000 jobs focused in the construction vertical alone.

The global trends in recent times have been witnessed that United States, China, and Germany are pushing for renewables, which made them launch a plan to reduce the global gas emissions by 40%. It will include building factories generating clean energy that would require creating 430,000 additional jobs. As a direct result, global use and implementation of solar technology has been on a steady rise since the early 2000. Solar is now the fastest rising source of renewable energy in the world, reaching about 1% of the total energy produced globally. In fact, solar energy production now rivals nuclear power globally. Solar energy reached a capacity of about 350 GW (gigawatts) globally in 2015, compared to nuclear energy which topped out at 391 GW in the same year. In addition, it is predicted that at the current rate of conversion to solar energy, it will overtake the use of fossil fuels by 2050, with most of the globe running on energy produced by the sun.

Since Renewable Energy is decentralised power, there are opportunities for generating jobs in villages. India's push to significantly strengthen the share of

renewable energy to fuel its development growth can have other positive spillover impacts. In addition to improving energy security, enhancing energy access, and mitigating climate change, renewable energy (RE) may be able to help reduce poverty, by creating jobs. These being jobs that require high to minimal professional skills, there is employment potential for even those with limited educational opportunities along with the professionals.

Jobs in solar sector are expected to create opportunities for poverty reduction along the renewable energy supply chain. Currently, there are 100,000 people employed in solar energy and another 48,000 in wind energy sectors. This number is expected to go up to 330,000 by the time India achieves its target of generating 160 GW from solar and wind energy by 2022, as per a study by the Council on Energy, Environment and Water and the Natural Resources Defense Council. The WRI's study is a qualitative analysis of these jobs, about how they have the potential to reduce poverty, especially in rural India.

The jobs will be geographically dispersed in areas located away from towns and cities, thereby spreading the economic benefits. These are also areas where people have fewer renewable energy skills and few alternative employment opportunities

other than seasonal farming.

In solar technology, a minimum of 17 people are required per megawatt (MW) of installed capacity - from manufacturing to the

operation, unlike coal where hardly five are needed. As a result, employment generation in coal is restricted, unlike solar or the RE sector, which are distributed and more people are needed to maintain and operate it.

In the years to come, jobs will be created related to other applications of the solar technology, such as for water pumps used for drinking water and irrigation projects. Since it is a versatile technology, the opportunity for employment is also vast. Solar energy projects create green jobs and provide a boost to India's developing economy. In a country where keeping up with the growing population's increasing energy demands is daunting, harnessing this clean and renewable energy source can help meet energy needs in a sustainable way while providing new economic opportunities. Solar photovoltaic (PV) is recognized as creating more jobs per unit of energy produced than any other energy source; thus it potentially represents a much needed solution to unemployment in the face of India's burgeoning population and labor force.

As India ramps up its solar installations at a rapid rate during the second phase of its Mission, an opportunity exists to increase public support for this potentially transformative energy resource. One easy way to demonstrate the local benefits of clean energy is to

publicize job creation numbers.

Finally, it can be concluded that solar energy projects create many local jobs in India-both one-time jobs during the pre-commissioning construction phase and permanent operations and maintenance positions over the multi-decade life of the solar plant. Supporting the growth of the solar industry and the reporting of jobs numbers by local businesses can continue this promising trend. A robust solar market is instrumental in creating jobs in India's developing economy in addition to providing renewable energy and increasing energy access. According to international market reports, solar PV creates a significant number of jobs. In fact, some studies indicate that the industry creates more jobs per unit of energy produced than any other energy source, particularly during the construction and installation of solar PV power plants. Within the PV market, direct jobs are those created by firms that are directly focused on PV project execution: solar developers, EPC firms, and PV component manufacturers. In contrast, indirect jobs are created by businesses that provide more generic services to the PV industry, such as suppliers of raw materials for manufacturing, electricity suppliers, and public officers who deal with administration and finance. Construction and commissioning consists of the actual installation of the project and setting up a connection to the national power grid. Direct jobs are created for construction workers, electricians, technicians, engineers, meteorologists, and technicians working for equipment vendors (such as inverter suppliers). Both skilled and unskilled workers are required during this phase of execution. Operations and maintenance creates direct jobs for technicians, electricians, maintenance and security staff, and operations managers. Both skilled and unskilled workers are required to carry out O&M in the plant.

Areas of work

Rural development has multiple dimensions and your area of work may depend on the education and specialization you had undergone. By and large, as a rural management professional one may get to work in one or more of the following areas:

Marketing: Considering the huge business potential in rural India, many of the companies, both Indian and multinational, engage people to formulate and execute strategies exclusively for rural sector. In these companies, under the overall marketing plan, there is a

rural marketing plan. It may be surprising but manufacturers of cars, motor bikes, mobile phones, biscuits, are leaving no stone unturned in penetrating the rural markets. Research on changing preferences of rural consumers and other dynamics of rural markets can also be one area of work.

Project Management: Government and private sector have come out with various projects for the benefit of rural India. Many of such projects are under public-private partnership. Projects may be related to power plants, road construction, housing and production plants etc. Under project management the job will relate to day to day monitoring of project execution and ensuring timeliness and cost optimization etc.

Farm Administration: India's farm sector has enough diversity. There are farmers with small holdings and also with big holdings. In many cases farm activities are conducted like business. The idea of contract farming has also got a big boost in a decade or so. To manage big farming activities, professionals are required.

Social Change: There are various bodies involved in social change or transformation of villages. These include Non-Governmental Organizations (NGOs) operating at state and national levels. There are organizations operating globally (example Bill and Melinda Gates Foundation, Aga Khan Foundation etc.) also. Under Corporate Social Responsibility many business organizations spend a part of their profit on social welfare and much of this expenditure is diverted towards villages. Big corporates both in public and private sector have their own corporate social responsibility or community service departments.

Rural Finance: Social and economic development are intertwined. The major objective of bank nationalization was to use the services of banks in socio-economic development of our country. Public sector banks have vacancies of rural development officer or agricultural or agricultural finance officers. These banks

also appoint business correspondents in rural areas who work under a supervisor. Non-Banking Financial Companies (NBFCs) have also expanded their network to small towns and villages. One should not ignore the opportunities created by microfinance institutions who mostly provide small amount as unsecured loans to poor people and also manage their savings. These work as per RBI guidelines.

Rural Entrepreneurship: There is an entrepreneurship and start up mini revolution in India. Many young people with fire in their belly, want to do something new and work on their own. Some of such people have their eyes on unexplored opportunities in villages. There are venture capital funds who are ready to invest in such products. Depending on the potential offered by the project, institutional support from other sources can also be available.

One should not be under the myth that to pursue a career in rural management one has to stay and work in villages. Many managerial positions are based at urban centres/metros. However these positions require frequent field visits to have a hands-on experience of rural settings and understanding of ground realities in the sector.

Career opportunities

Big corporates like Hindustan Unilever, ITC etc. require rural management professionals. Following are few of the organizations and companies who have recruited through campus placement recently. This list can tell you about the places where you can possibly work after having a professional education in rural management and related subjects.

MANN KI BAAT

Continued from page 2

scent of this tradition in each and every sector today as well. But, in this new era, the new generation is coming forward in a new way with a fresh vigour and spirit to fulfill their new dream. Recently, I attended a programme where a portal was launched, its name is 'Self 4 Society', MyGov and the IT and Electronics industry of the country have launched this portal with a view to motivating their employees for social activities and providing them with opportunities to perform in this field. Their dedication and vigour can make each Indian feel proud. A fresh and pleasant air of IT to society, We-not I, a transformation from the individual to the community is imbibed in this. Someone is teaching the old people; someone is involved in the campaign of cleanliness whereas someone is helping out the farmers. And there is no vested interest behind all these activities but a pure feeling of dedication and resolve is the driving force. One young person learned to play wheelchair basket ball in order to be able to help the wheelchair basket ball team of differently abled, divyang players. This spirit, this dedication is a mission mode activity. Will this not make every Indian feel proud. This spirit of 'We, not I' will surely inspire all of us.

My dear brothers and sisters, when I was going through your suggestion for Mann Ki Baat this time, I found a very interesting comment from Shri Manish Mahapatra from Pudducherry. He wrote on Mygov- Please take up the topic "in Mann Ki Baat" as to how the tribes and their traditions and rituals are the best examples of coexistence with the nature. How do we need to adopt their traditions in our lives for achieving sustainable development and learn from those traditions? Manishji, I appreciate you for bringing this subject among the listeners of Mann Ki Baat. This is one subject that inspires us to look into our dignified past and our ancient traditions, Today, the whole world and specially the western countries are discussing about environment protection and are trying to find new ways to

adopt a balanced life style. Our country is also facing this problem. But, for its solution we only have to look inwards, to look into our glorious past and our rich traditions and have especially to understand the lifestyle of our tribal communities. To live in consonance and closed coordination with the nature has been an integral part of our tribal communities. Our tribal brethren worship trees and plants and flowers like gods and goddesses. The Bhil tribes of Central India and specially those in Madhya Pradesh and Chhattisgarh worship Peepal and Arjun trees religiously. The Bishnoi community in the desert land of Rajasthan has shown us a way of environment protection. Specially, in the context of serving trees, they prefer laying down their lives but cannot tolerate any harm to a single tree. Mishmi tribes of Arunachal Pradesh claim their relationship with tigers. They even treat them like their brothers and sisters. In Nagaland as well, tigers are seen as the forest guardians. People of Warli Community in Maharashtra consider tigers as their guests and for them the presence of tigers is a good omen indicating prosperity. There is a belief among the Kol community in Central India that their fortune is directly connected with the tigers and they firmly believe that if the tigers do not get food, the villagers will have to face hunger. The Gond tribes in Central India stop fishing in some parts of Kaithan river during the breeding season. They consider this area as a fish reserve and they get plentiful of healthy fish because of this belief of theirs. Tribal communities make their dwelling units from natural material which are strong as well as eco-friendly. In the isolated regions of the Nilgiri plateau in South India, a small wanderer community Toda make their settlements using locally available material only.

My dear brothers and sisters, this is a fact that the tribal community believes in very peaceful and harmonious co-existence but, if somebody tries to harm and cause damage to their natural resources, they do not shy away from fighting for their rights. There is no wonder that our foremost freedom fighters were the brave people from our tribal

communities. Who can forget Bhagwan Birsa Munda who struggled hard against the British Empire to save their own forest land. Besides whatever I have said, there is a very long list of examples of the tribal communities which teach us how to keep a close coordination and make adjustments with the nature and the nation is indebted to our tribal people for the forest land that is still remaining with us. Come on, let us express our gratitude towards them.

My dear countrymen, in "Mann Ki Baat", we talk about those persons and institutions who make extraordinary contribution for the society. These works may seem small but have a very deep impact in changing our thinking and in giving a new direction to the society. A few days ago, I was reading about a farmer brother Gurbachan Singh from Punjab. The son of this hard working farmer Gurbachan Singh ji was to be married. Gurbachan Singh ji had told the bride's parents that the marriage would be performed in a solemn manner. There is absolutely no need to spend much on wedding reception or any other item. We have to keep it a very very simple event. But then he suddenly said that he had one condition. And, when a condition is put these days, generally it is thought that the other side is going to make a big demand which will be really difficult for the bride's family to fulfill. But, you will be surprised to know that Bhai Gurbachan Singh was a simple farmer and what he told the bride's father and the condition he placed reflects the true strength of our society. Gurbachan Singh ji asked him to promise that they will not burn parali or stubble in their fields. You can well imagine the social strength this statement had. This point made by Gurbachan Singh ji appears quite ordinary but this reveals how tall and strong his personality is and we have seen that there are many families in our society who connect their individual matters with the benefit of the society as a whole. Shriman Gurbachan Singh ji's family has presented one such example before us. I have also read about a village Kallar Majra which is near Nabha in Punjab. Kallar Majra came into lime light as the farmers there mix the

stubble with the sand by ploughing their fields rather than burning the stubble and adopt the necessary technology for the process. Congratulations to bhai Gurbachan Singh ji ! Congratulations to the people of Kallar Majra and of all those places who are making their best efforts to keep the environment clean and pollution free. All of you are carrying forward the Indian tradition of a healthy life style as a true successor. Just as a sea is formed by collection of tiny drops, similarly, a small constructive step, plays a vital role in creating a positive environment.

My dear countrymen, it has been told in our epics:-

ॐ द्यौः शान्तिः अंतरिक्षं शान्तिः;
पृथिवी शान्तिः आपः शान्तिः ओषधयः
शान्तिः!

वनस्पतयः शान्तिः विश्वेदेवाः शान्तिः ब्रह्म
शान्तिः,

सर्वं शान्तिः शान्तिरेव शान्तिः सामा
शान्तिरेधि!!

ॐ शान्तिः शान्तिः शान्तिः!!

It means- O, Lord, peace should prevail all around in all three "Lokas", in water, in air, in space, in fire, in wind, in medicines, in vegetation, in gardens, in sub conscious, in the whole creation. Grant peace to each soul, each heart, in me, in you, in every particle and everywhere in the Universe. Om Shanti: Shanti: Shanti:.

Wherever there will be a talk of world peace, India's name and contribution will be written in golden letters. For India, 11th of November this year has a special significance because on 11th November a hundred years back the World War I had ended. Ending of that war is completing one hundred years meaning thereby that a century of ending of the vast devastation and human loss would also get completed. For India, World War I was an important event. Rightly speaking we had no direct connection with that war. Despite this, our soldiers fought bravely and played a very big role and made the supreme sacrifice. Indian soldiers showed it to the world that they are second to none if it comes to war. Our soldiers have displayed great valour in difficult areas and adverse conditions. There has just been a single objective behind it- Restoration of peace. The world witnessed a dance of death and devastation during the World War I; According to estimates, around one crore

soldiers and almost the same number of civilians lost their lives. This made the whole world realize and understand the importance of peace. The definition of peace has changed in the last hundred years. Today, peace does not only mean 'no war'. There is a need to work unitedly to address issues such as terrorism, climate change, economic development to social justice through universal cooperation and co-ordination. Development of the poorest of the poor is the real indicator of peace.

My dear countrymen, our North-East has a unique distinction of its own. The natural beauty of North-East has no parallel and the people of this area are extremely talented. Now our North-east is also known for all best things. North east is one region that has made grand progress in organic farming. A few days ago Sikkim won the prestigious Future Policy Gold Award, 2018 for encouraging the sustainable food system. This award is given by the UN body 'Food & Agriculture Organisation' - FAO. You will be delighted to know that this best policy making award is equivalent to an Oscar in the sector. Not only this, our Sikkim outperformed 51 nominated policies of 25 countries to win this award. For this, I heartily compliment the people of Sikkim.

My dear countrymen, October is about to end. Quite a change is being felt in the weather. Winter has set in and with the changing weather, the season of festivals has also set in - Dhanteras, Deepawali, Bhaiya Dooj, Chhatth - in a way it can be said that the month of November is the month of festivals. I extend my best wishes to all countrymen for these festivals.

I would request all of you to take best care of yourselves and take care of your health as well and also take care of social interests. I am sure these festivals are an opportunity to make new resolves. These festivals prove a chance to advance in a mission mode and to make firm resolves in your life. Your progress is a vital part of the country's progress. The more you progress, the more will the country progress. My best wishes to you all. Thank you very very much.

International

Prime Minister Shri Narendra Modi visited Japan on October 28-29, 2018 for the India-Japan Annual Summit with Prime Minister of Japan H.E. Mr. Shinzo Abe. During the visit, recognizing the unparalleled potential for development of relations between the two countries, Prime Minister Modi and Prime Minister Abe reviewed the significant milestones achieved over the last four years and outlined the shared vision for the future of India-Japan relations.

Japan's cabinet approved a draft bill to bring more blue-collar foreign workers into the country to address chronic labour shortages. The Bill is now likely to be submitted to Parliament. Meanwhile, the draft legislation has come under attack from both the opposition and members of Prime Minister Mr. Shinzo Abe's own party. However, business leaders have welcomed the move. The bill would allow foreign nationals with skills in sectors facing particularly severe shortages to obtain five-year visas, which would not allow them to bring their families. Foreign workers in those fields who hold stronger qualifications and pass a more difficult Japanese language test will be able to obtain a visa that can be extended indefinitely, eventually leading to residency, and will be able to bring over family.

US President Donald Trump has said illegal immigrants trying to enter the United States will now be apprehended at the border and, unlike the current practice, would no longer be released. Announcing a significant change in the current catch-and-release policy for illegal immigrants, Mr Trump said that they would be released only after a US court pronounces its judgement on their asylum application. If negative, they would be deported to their original country.

Business

Collections from Goods and Services Tax crossed one lakh crore rupees mark for the second time since its launch in July last year. The government said the total gross GST revenue collected in October 2018 is Rs. 1 lakh 710 crore. In the previous month, the GST revenue was Rs. 94,000 crore. GST revenue had last crossed one lakh crore rupees mark in April this year. Union Finance Minister Mr. Arun Jaitley said, revenue collection under GST has grown because of lower rates, lesser evasion, higher compliance, only one tax and negligible interference by taxation authorities.

Prime Minister, Shri Narendra Modi addressed the 'Make in India: India-Japan partnership in Africa and digital partnership' seminar, in Tokyo. The Prime Minister explained how the Union Government is focused on improving ease of doing business, and ease of living for the citizens. He expressed happiness at the large presence of Japanese companies in India. Noting that Japan has been a partner in many important industrial projects in India, the Prime Minister explained the strength of India's economic performance over the last four years. He said India is today the fastest growing major economy. He mentioned other major transitions in the Indian economy, including the move from informal to formal economy, digital transactions and GST etc.

Prime Minister Shri Narendra Modi has said that every GST registered Micro, Small and Medium Enterprise, MSME, will be given a rebate of 2 percent interest on the amount of a new loan or incremental loan up to one crore rupees. Announcing a series of measures during the launch of MSME Support and Outreach Programme in New Delhi, Shri Modi said, the government has also decided to increase interest subvention on pre and post shipment credit for exports by MSMEs from 3 per cent to 5 per cent. He said, loan of up to one crore rupees will be sanctioned for MSME sector in 59-minutes. Shri Modi said, all the companies which have a turnover above 500 million, will now be required to bring them on Trade Receivables e-Discounting System, so that MSMEs do not have problems in cash flow.
