### **17 Topic: - Women's safety:**

The Katta started with the discussions on the recent sexual harassment cases, and the need for the discussion for the women's safety. The statistics were shown on the facts for the cases registered for sexual harassment and domestic violence. The number has been increasing year by year. Many discussed the mentality of today's society is changing and this could be the main reason for such cases.

The next topic came into the discussion was, how to prevent such incidents? And if such an incident happens what would be the best punishment for the accused? Many suggested the Life Sentence and the death penalty are not enough to spread fear among the criminals, which lead to more such cases. The particular point in the discussion came about the Chhatrapati Shivaji Maharaj, and the way he had handled such crimes. Another point which was discussed especially by women was about their rights.

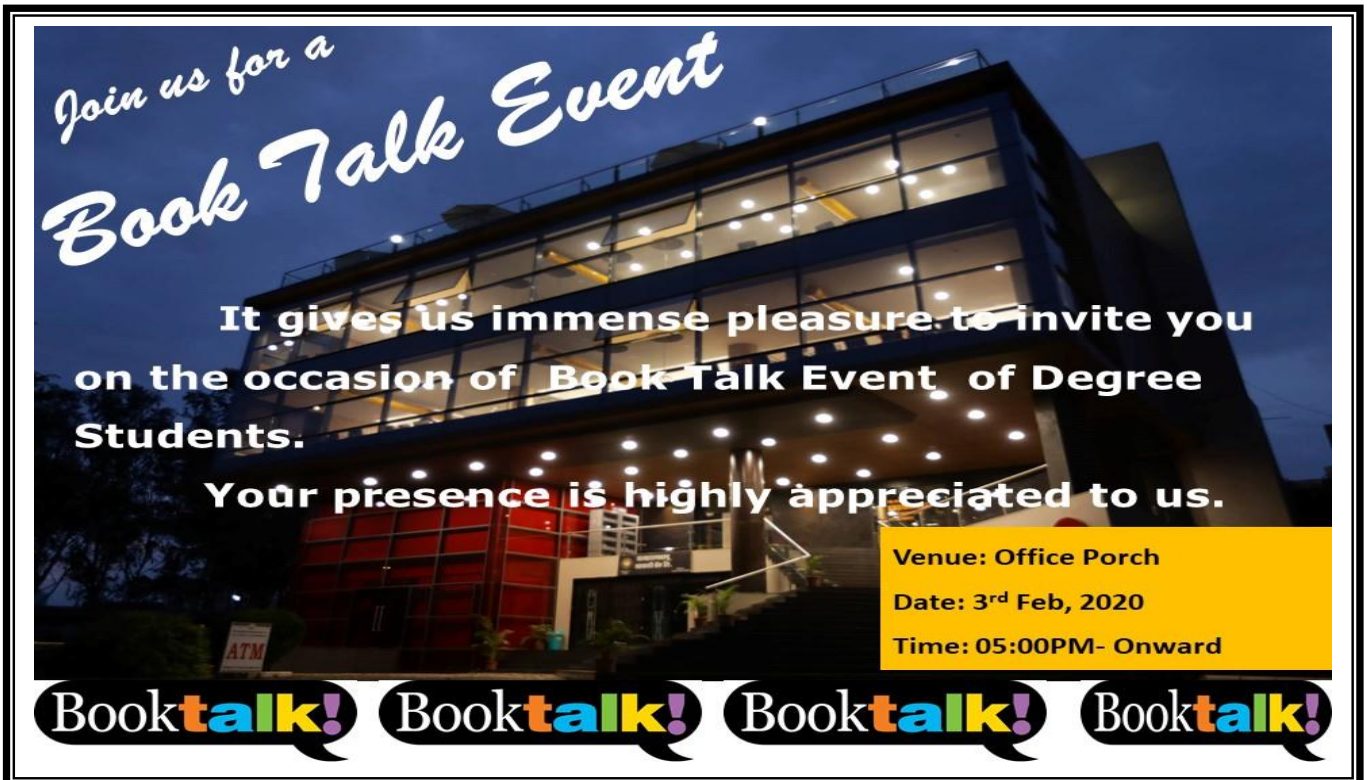

Governments have designed many new laws for women's safety. The hosts have informed many laws to the Katta members. Many safety applications were also

discussed.

**A Sex Education was the next big topic which still considered to be a taboo in many Indian families. Need for Sex Education in the appropriate age is very essential to keep them healthy and safe social environment. The way the new generation has access to technology is also a big reason to worry about the use of technology by them. Many use pornographic content as their first-time sex education which is very vague and reel.**

**The Katta Ended on the note of spreading the knowledge acquired in the discussions to as many people as possible. Spreading awareness about women's safety.**

### **18 Topic: - NRC & CAA**

The library katta started with a brief explanation on NRC & CAA by the host. The Host informed participants with all the laws, their terminologies and their implications. Many stated this proposal may eventually be a grand success. There are several points in favour of the same as explained through the following bullet points.

Following points were discussed by the students in the favour.

1. No country can work without a register of its citizens, so the NRC seeks to maintain a list of its own citizens, as this will help exclude illegal citizens. This has been a major cause of concern especially in the eastern and north- eastern parts of our country.

2. The CAA does not exclude legal Indian citizens of any religion, but instead seeks to grant a respectable haven to those who have escaped religious persecution in neighbouring countries.

3. Neither does the CAA exclude the possibility of granting Indian citizenship to those from the majority religion in these three countries, who meet all the conditions stipulated for conventional cases.

4. Due to the expected concerns of people residing in the North- Eastern region of India, the law has excluded those living within states with an Inner Line Permit, from the purview of the CAA. Several of the states in this region are sparsely populated, with a substantial tribal population. Thus, there was a fear that an influx of immigrants, irrespective of religion, would alter the culture and affect the voting patterns, leading to a compromise in the cultural traditions. This has been respected by excluding the areas where an Inner Line Permit is necessary.

5. The cut-off date has been fixed at the year 2014, so the law does not in any way 'encourage' future immigration.

6. Though initially denying its role in outward illegal migration, Bangladesh has now extended a helping hand by confirming that those proven to be Bangladeshi nationals, will be taken back.

7. The admittedly botched NRC process in Assam need not be considered as the standard, as that was based on the Assam Accord, while the rest of India's exercise will be built around a separate draft, yet awaited. All the pros were considered and discussed briefly. Almost all participants agreed that, with the current situation in the north western India this law by the government is in the right direction with few conditions. While there are inherent pros to this proposal, there of course, also exist several cons. These are discussed below:

1. This law is highly discriminatory against one religion, going completely against the principles set in the Indian Constitution, especially Article 14 that recognizes equality amongst all religions.

2. There are severe implications also for the north- eastern region, as those states are sparsely populated, with a substantial tribal population, so influx of immigrants, irrespective of religion, could alter the demographics.

3. The NRC process that was carried out in Assam was highly flawed. The cut-off date there was fixed at March, 1971 due to the stipulations under the historical Assam Accord. Millions of poor people, especially the poor had to bet their lifetime savings, in procuring the requisite documentations. Yet, many were left out of the process.

4. Some detention centres have already built, and more are likely to be built to house the millions set to be displaced. This problem has been compounded by the fact that Bangladesh has on the whole, denied its role in any outward illegal migration, so could be reluctant to 'take back' its people.

5. The entire theory of massive illegal migration fails on the one count, that the Bangladesh economy is at present doing much better than its Indian counterpart. The last quarter saw the growth pegged at 8.1% as opposed to the 4.5% achieved by its larger neighbouring fact, Bangladesh's Per Capita Income at present is only marginally less than the state of West Bengal, or the Indian average, while in fact being higher than the state of Assam.

6. The entire process also risks compromising India's position on the global map. Bangladesh is in fact a friendly neighbour, and a key business ally in several ways, though inching closer to China at several policies. Besides the high economic growth the country presently enjoys, Bangladesh has for the most part not been a Theocratic state, so its vilification across the border, could have severe repercussions.

7. Even if theoretically the laws end up not being discriminatory, there is a major chance of domestic peace getting out of hands, thanks to the present profusion of instant messaging and social media. The street protests across the country at a time of economic strife, does not bode well for the bigger picture. The main lesson we draw from the discussion is that both viewpoints are perfectly fine, as long as the backing evidence is provided. Based on all the points and facts discussed, the attended on the note of not being too judgemental or biased towards any single side but to develop an overall thinking ability to analyse any given topic.

## **“VACHAN PRERANA DIN”**

RIT’s Central Library celebrated ‘Vachan Prerna Divas’ or Reading Day on 15th October,2020 to pay homage to our former President Dr. APJ Abdul Kalam who loved reading and writing. This day is observed so that readers understand the importance of reading and are encouraged to develop it as a hobby.

Every year, this day is observed on 15th October as it is the birth anniversary of our former President Late Dr. A.P.J. Abdul Kalam who strongly advocated 'reading' more as a necessity rather than just a mere hobby. Books not only inspire us, but they also provide knowledge.

This year by knowing COVID 19 pandemic situation, some guidelines had been received from Tantra Shikshan Vibhagiya Karyalay Pune, to celebrate Vachan Prerana Din. They suggested that observe this day mostly by online mode. Organize programs, webinars, discussions, lectures, training programs etc. by online mode. DTE suggested that if possible organize programme as per the following COVID guidelines. To increase reading habit give book in PDM format to our friends, relatives. Share message on social media like WhatsApp, Internet, Face book or Twitter to cultivate the habit of reading. To preserve Marathi Vachan Sanskruti all should use digital medias. Prepare or develop Marathi Vachan Katta on social media.

As per the DTE guide lines RIT’s Central Library Celebrated “ Vachan Prerana Din” on 15<sup>th</sup> October 2020. We Library Staff did Pratima Pujan of Dr. APJ Abdual Kalam at Library. After that we all did resolution that we will read regularly and we will encourage our student, staff, faculty and friends for reading to increase reading habit among them.

Knowing the importance of the day and as per the guidelines by DTE we organized online Quiz for our readers along with certificate. Quiz were on A. P. J. Abdual Calam. There were 15 questions related to A. P. J. Abdual Calam Biography. Quiz were open for 2 day ie. 15 and 16 for the readers. We had prepared google form for quiz and Link for the Quiz was as follows:

<https://forms.gle/za6w3saGbmcYoY6d9>

We got tremendous response for this quiz. More than 427 readers solved this quiz and participants got certificate who is crossed score of 40%.

In This Covid Pandemic also we celebrated the Vachan Prerana Din and we reached to our readers by using online mode to encourage the readers and disseminate importance of reading.

या विषयास अनुसरून राजारामबापू इन्स्टिट्यूट ऑफ टेकनॉलॉजी, राजारामनगर या महाविद्यालयात दि. १४ जानेवारी २०२१ ते २८ जानेवारी २०२१ या कालावधीत "मराठी भाषा संवर्धन पंधरवडा" साजरा करण्याचे ठरवले. या संदर्भात या कालावधीत ग्रंथालयाकडून विविध उपक्रमांचे नियोजन करण्यात आले. सर्व शिक्षक, शिक्षकेतर कर्मचारी आणि विद्यार्थी यांना महाराष्ट्र राज्य साहित्य आणि संस्कृती मंडळ यांनी वैविध्यपूर्ण विषयावर प्रकाशित केलेले महत्वपूर्ण संदर्भ साहित्याच्या संकेतस्थळाची (<https://sahitya.marathi.gov.in>) माहिती आर आय टी परिपत्रकाद्वारे देऊन त्यावर भेट देऊन वाचन साहित्याचा आस्वाद घेण्याची आणि सर्वांनी या उपक्रमा मध्ये सहभागी होऊन "मराठी भाषा संवर्धन पंधरवडा" साजरा करण्यास सहकार्य करण्याचे आवाहन करण्यात आले.

सध्याच्या कोविड पेंडेमिक परिस्थितीचा विचार करून ग्रंथालयाने एका व्हर्चुअल बुक एक्झिबिशन (ऑनलाइन ग्रंथ प्रदर्शन) चे आयोजन केले होते. या मध्ये विविध मराठी पुस्तकांचा समावेश केला होता. सदर पुस्तक प्रदर्शन <https://youtu.be/nq7xuqa0Zs> या संकेतस्थळावर उपलब्ध करून दिले होते. तसेच त्याची माहिती आणि लिंक फेसबुक वर देण्यात आली. या पुस्तक प्रदर्शनाला वाचकांचा भरघोस प्रतिसाद लाभला. वाचकांनी अश्या प्रकारचे प्रदर्शन प्रथम पाहिल्याचे तसेच हि कल्पना खूप आवडल्याचे आणि याचा आम्ही खूप आनंद घेतला अश्या प्रकारचे अभिप्राय दिले आहेत.

या प्रदर्शनाला युट्युब वरून एकूण ३५० हून अधिक वाचन प्रेमींनी तर फेसबुक वरून एकूण २०० हून अधिक जास्त वाचन प्रेमींनी भेट दिली. यामध्ये ८९. ७% वाचकांनी या उपक्रमबाबत समाधानी असल्याचा अभिप्राय दिला आहे. तर ७९. ३% वाचकांनी हा उपक्रम आपल्या दैनंदिन जीवनासाठी

आभासी ग्रंथालय प्रदर्शन हि कल्पनांचा खूप छान वाटली, आवडली. या कोविड १९ च्या महामारीत वाचनाची आवड खूप लोकांच्यात निर्माण झाली आहे. पण त्याना पुस्तक कोणत्या पुस्तकाची निवड करावी हे सुचत नसेल तर या प्रकार चे प्रदर्शन पाहणे उपयोगी ठरेल. पुढील वाटचालीस खूप शुभेच्छा.

## LIBRARY KATTA: THE WORLD BEYOND ENGINEERING

Submitted by Sushma Kulkarni Rajarambapu Institute of Technology, India

Consider the daily routine of an engineering student. He attends college. He works on his engineering projects and his classwork and laboratory. He maintains his knowledge base with all the new technologies in the world. But he is certainly unaware of many socio-economic problems, current issues and recent events which affect the society as a whole.

On the contrary, Katta is a symbol of Discussions & Debates. The Katta is generally a centre place of any village. It is like a raised platform around a tree where people come usually in free time. And this is exactly what Library Katta is for our students. Students meet-up at the central library stairs each month on Wednesday to share their thoughts on a certain topic.

The Rajarambapu Institute of Technology has started this activity with the vision of overall development of students, which is also the ultimate purpose of education. Library Katta provides the platform to the students to share their thoughts on a particular issue. It is an informal gathering of the students to think and express themselves on social issues in the community by improving their reading of newspapers, books, magazines etc. There is no evaluation and assessment of any student. It is only informal discussion amongst them that improves their presentation skills and confidence level. As an engineer, the sensitivity to social and community issues is important so that the students can identify such problems and develop solutions.

In today's social life, a student's thinking ability seems to be diminishing. Creating a desire for students to observe themselves, to discover themselves, to think, to explain, and to present them in a way that they understand, in an attempt to achieve holistic development of the students.

Through this activity, we try to brainstorm thoughts on the issues that arise in society, the objectives of the government, policies, social, cultural, economic, educational, national - international issues. The initiative aims to create positive change in the student, strengthen his academic level, take serious

thought and poise and develop a strong youth.

This initiative is very important for the library also, as it provides an opportunity for dialogue and discussion of the staff and students of the library along with the reader's needs. Assessment of the students' perceptions of their social concerns is necessitated. This is an attempt by the Library Katta to try to raise awareness. As an outcome of implementation, we are able to create social awareness of Library Katta as well as motivate students from this initiative. Our mission is to continue with the declaration, "You come and bring others" to benefit the society.

Sill today the total number of topics discussed is 17 and the number of students participated in the activity is approximately 600. Some of the topics discussed are Triple Talaq and the present day conditions of women in the society, CAA and its impact, Las Vegas- Another Indicators of Peacelessness, Clean India Movement- Just a slogan or Do we really care, Women's Safety etc.

The Outcome of the activity is observed as an increase in frequency of visits to the library by the users.

User satisfaction levels have increased. The informal feedback from the users in the form of dialogue also helped to correct or modify certain procedures that helped them. User interaction is encouraged by all the sections on an informal basis and this has improved the functioning and activities in the library.
